

Seventh Annual Conference

The Affordable Health Care Act – Challenges & Opportunities One Year Later

The Hotel Monaco, Alexandria, VA ■ Nov. 7-9, 2011

About the Agenda

The Roundtable provides an opportunity for members and guests to hear presentations by high level government officials – from Congress and the Obama Administration, academics, benefit consultants, plan administrators, advocates and other health care experts in a rather intimate setting.

A unique event for providers of benefits to state and local employees, this year's agenda will feature presentations regarding the ongoing implementation of the ACA; the challenges that public plan administrators have encountered and the lessons learned from these experiences; how pending legal challenges might impact the current law; how purchasers are working with the Department of Health and Human Services on issues ranging from the EERP to the Partnership for Patients; and how Health IT initiatives and cost-effectiveness initiatives are being integrated into the health care system.

The program will explore whether the current national debt debate might create an opportunity for meaningful health care cost-containment legislation. Finally, the program will explore how public sector purchasers can work together to improve the quality and efficiency of the health care delivery system.

Who Should Attend

If you're responsible for implementing health care reforms for public employees in any governmental unit – large or small – this conference has been developed for you. In addition to a first-rate agenda, you'll have an opportunity to network with some of the Nation's largest and most innovative public sector health care purchasers, industry experts, and service providers.

About the Public Sector HealthCare Roundtable

The Public Sector HealthCare Roundtable is a non-partisan, member-directed grassroots coalition that was organized to give public sector health care purchasers a voice in the national health care reform debate. With the passage of the *Patient Protection and Affordable Care Act*, the Roundtable is positioned to serve as an effective voice for the public sector throughout the multi-year phase-in of this enormous set of legislative and regulatory objectives. In many ways, coordinated input during the various rulemaking processes may be even more important than the Roundtable's advocacy during the legislative process.

The Hotel Monaco, Alexandria, VA

With its luxuriously rich design and landmark Old Town location, Hotel Monaco Alexandria provides all you need to create a memorable stay. A four-star level luxury hotel, the Hotel Monaco combines a sense of antebellum history with the flair you expect from a Kimpton Hotel. The Monaco's 241 rooms offer access to local museums, restaurants, shops and historic Mount Vernon. Just a short distance from Reagan National Airport, the hotel also offers easy access to the Washington, DC metro via the King Street station.
